“ I knew Nick all the way back at SE Junior High. We played basketball together and talked a lot of baseball. He always seemed to willing to laugh which I think is a great trait that not enough people have. Sadly we lost touch over the years since he ended up going to West High I think. Reconnected with him within the past decade or so and got to talk with him a few times over the past year. I'm sad he had to depart from the rest of us so soon but am reassured that he isn't suffering anymore. Rest in peace Nick.
