“ *I remember when I was 12 years old and my mommy Rita was pregonet with our little sister. At first when I found out my mom was pregonet I hated it. I had been the baby for 12 years & now this little begger is going to come in and take my place. But anyways back to the point lol. My mom was showing and she called me in to take her a towel and all I see is this thing roll across my mommy's tummy. Scared the crap out of me but it was at the moment I feel in love with my little sister Barbara. My mommy was the best mommy and did everything to always keep us safe. Love you mommy always your Brat Monica*
